Packages and their suitability

Student: basically a sandbox for your project testing. It sets up an inexpensive live production platform for your web application projects. You get a free sub domain if you don't have a domain of your own.

Personal: if you need to host your CV or Resume online or you want a platform where you can showcase your projects, inventions and other information you want to share with everyone. You can also host your personal blog on this package.

Regular: if you are hosting a website for a small organization just starting out, as a way of getting their online presence, this package would be enough for you for a start, as the website gets more popular, we would migrate you to a more versatile platform

Silver: if you are running a sole proprietorship business with a few persons working for you, this package is suitable for you without you breaking the bank / your budget

Gold: This package is suitable for medium sized organization, motivational speakers, and an event notification website, this package provides a great medium for you to start your Information Blog.

Platinum: This is suitable for a full fledged business just about to host their websites for the first time, Information Blogs, Business and high demand web applications

Enterprise: This package is for high traffic website, it is especially tailored for corporate organization that wants to improve their users' online experience. It is scalable and reliable.

Master Reseller: if you want to start your own web hosting business, this package would help you launch that vision without having to break the bank or run out of cash or business. Under this package, we would provide you with everything you need to start your web hosting company.
